## Komatsu Forklift

Komatsu Forklift U.S.A. Inc., a member of the Komatsu Ltd. family, has a positive reputation for building rugged and reliable lift trucks. They are recognized globally as a business who has a proud heritage and who maintains a benchmark of quality in equipment production and intention.

Komatsu Forklift U.S.A., Inc., a division of Komatsu Forklift Co., Ltd., International Division and Komatsu Utility Co., Ltd remains devoted to their promise of helping to build a better tomorrow. The company heritage dates back to 1921, when Komatsu, Ltd started out in Japan as a maker of mining and construction equipment. Very soon the business grew into an industry leader and was accountable for constructing Japan's first modern bull dozer and farm tractor.

Over the past few decades, Komatsu has evolved to become a international giant thanks to their strength and competence within the various fields of logistics, excavating, construction and mining. Utilizing progressive designs and technological superiority, they remain at the forefront of these industries.

Ever since 1945, Komatsu Forklift Co. Ltd has grown tremendously. Using current design methods and superior manufacturing functionality, Komatsu has distinguished itself through the manufacture of reliable and robust forklifts that clients from around the globe have come to rely on. In 1976, Komatsu Forklift U.S.A., Inc was created to meet the growing demand for its goods in the North American marketplace. To improve expenditures and efficiencies, a state-of-the-art facility was built in Covington, Georgia in 1990, to consolidate all U.S. Komatsu Forklift product support and manufacturing operations.

Remaining one of the primary suppliers and makers of rugged and innovative lift trucks today, Komatsu Forklift U.S.A., Inc continues to satisfy their customers' needs worldwide. Central and Latin America, Mexico, the Caribbean and South America are home to many of Komatsu's happy customers along with their North American consumers.

After years of delivering consumer service and maintaining relationships, Komatsu Forklift understands that meeting the customers' needs is vital. All the latest product enhancement at Komatsu starts first with the client. By welcoming input and opinions, they are able to determine client wants and expectations then cultivate revolutionary creations and then build to exceed Komatsu Engineering Principles. Assuring consumers that quality is designed from the start and sustained throughout the production, service and product sales processes, allows Komatsu to end up with a top-quality product from start to finish.

Komatsu engineers are specialized professionals in designing lift trucks, construction equipment and heavy duty equipment. Their design skill and expertise assures that each new piece of equipment will hold up in the toughest environments and be able to survive the roughest applications. Adherence to stringent engineering standards allows Komatsu Forklift to meet ISO 9001 standards. Computer aided design and rigorous internal quality standards all factor in to top-quality forklift products. Komatsu Engineering Standards transform the modern and progressive technology used in advanced mining and construction equipment into world class equipment.

The ultra-modern facility in Covington, Georgia has all the essential requirements for full scale production. This plant is able to take unprocessed steel and manipulate it by preparing, welding, and fabricating it. Once assembled and painted the lift trucks are ready to leave the facility and enter the marketplace. Maintaining quality control through the duration of the production process, assures customers that the quality is built into Komatsu's products from the very beginning.

Komatsu believes that since a product is only as worthy as the individuals who sell and support it, their dealers make all the difference. Komatsu Forklift is proud of their committed supplier networks who strive to exceed expectations. Specialized in all aspects from product sales, service or operating education, or aftermarket support, their diverse association of knowledgeable and capable professionals are available. Komatsu Forklift Vendor locations across the country have a Komatsu OEM parts on-hand to provide the essential service required to keep customers' operations running effortlessly. Computerized, real-time access with next day distribution from their highly automated supply hub is another option. The online K-Link system assists dealers with online components management, service and acquisition for all major lift truck models.

At Komatsu Forklift U.S.A., Inc. they understand that their world-class businesses rely on Komatsu lift trucks in their every day operations. So Komatsu focuses their attention on their national account consumers enabling them to gain from a unique partnership that lets them adapt their relationship in order to raise customer productivity and profits. Komatsu nationwide account consumers have access to on-line components and service support system and a comprehensive fleet administration program, providing the ability for Komatsu to be their total solution for any forklift concerns.

The dependable and efficient staff at Komatsu Forklift U.S.A., Inc., are focused on providing their clients an exceptional experience no matter if it is through sales, instruction, maintenance, or aftermarket support. They want to guarantee the level of customer service offered will help their clients meet or exceed their goals and build a lucrative business/client relationship in the process. Komatsu strives to understand each of their customers' unique ways of doing business and enjoys working together to develop a plan to best insure their ongoing success.

Komatsu encourages you to get in contact with one of their many community Komatsu lift truck sellers to learn more about the numerous goods and services available. Customer satisfaction and support are two of the organizations top priorities and it is easy to see why thousands of clients world-wide rely on the Komatsu family of products everyday.
